Dynamic Firewall Automation
Centrally manage host-based firewalls including automatic updates for when servers are added, changed or retired.

File Integrity Monitoring
Use cryptographic signatures to detect unexpected changes to system binaries, configurations, source code, and other critical files.

THE CREDIBLE CONTENT MACHINE

Our software automatically creates persuasive content from your satisfied customers.

Simple, Secure Sharing from Anywhere

Box offers secure, scalable content-sharing that both users and IT love and adopt.

Sign Up

Online File Sharing

Box lets you store all of your content online, so you can access, manage and share it from anywhere. Integrate Box with Google Apps and Salesforce and access Box on mobile devices. Learn More

Security Leadership in the Cloud

Box pioneered a new level of content management security, with role-based access controls, 99.9% uptime guarantee, and high-grade SSL encryption on transit and 256-bit AES encryption at rest. Box has also been issued an SSAE 16 Type II report. ▶ Watch Video · Learn More

What our customers are saying

We're excited about what we've done with Box. We've enjoyed a very stable, high quality service that's reliable with great performance.
